

Vaccination Pod

Helping to keep you safe, 24 hours a day!

Safespace24 has developed the Vaccination Pod so health professionals can respond quickly and efficiently to vaccinate people in a safer way. This solution has been carefully designed to ensure a smooth implementation and utilization. From the 60-second installation process, the quick ship lead time, and to using surfaces that can be disinfected quickly, this seamless design provides what health teams need to vaccinate our population quickly.

Infection Control

All hard surfaces for ease of sanitation. Non-porous finishes won't hold viruses or bacteria.

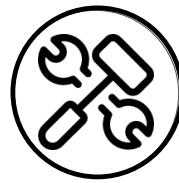

Lead Time

State of the art robotic equipment allows us to dispatch in as little as 2 weeks.

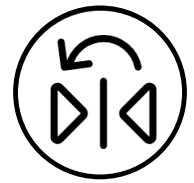

Quality

We have produced 100s of panels over the past 20 years for the healthcare industry. We use top quality materials to deliver a high performing solution.

Ease of Installation

Our lightweight panel technology and simple installation design enables you to set up, take down and reconfigure as demands change.

Configurations

Single-sided and double-sided configurations allow you to maximize available space to support the most patients possible.

Material

Durable, Hollow
Core Panels

Finishes

White/Maple

Dimensions/Weight

60"W x 48"L x 60"H
72"W x 48"L x 60"H
